Atlas of mammalian chromosomes, An, Vol. 2 (T. C. Hsu and K. Benirschke), 100
Breeding and improvement of farm animals, 6th edn (V. A. Rice, F. N. Andrews, E. J. Warwick and J. E. Legates), 55
Climatic physiology of the pig, The (L. E. Mount), 665
Clinique canine, Vol. II (P. Groulade), 98
Colour atlas of canine and feline dermatoses (R. M. Schwartzman and F. Kral), 481
Diagnostic aids in the practice of veterinary medicine, 3rd edn (H. H. Berrier), 203
Diagnostic methods in veterinary medicine, 6th edn (George F. Boddie), 480
Diagnosis of rinderpest (G. R. Scott), 597
Domestic animals of China (H. Epstein), 597
Experimental chemotherapy, Vol. 5 (ed. by R. J. Schnitzer and F. Hawking), 155
Fluid balance in canine surgery (L. W. Hall), 156
Fluorescent protein tracing, 3rd edn (ed. by R. C. Nairn), 429
Fundamentals of small animal surgery (E. P. Leonard), 98
I.A.T. manual of laboratory animal practice and technique (ed. by D. J. Short and Dorothy P. Woodnott), 481
Interaction of drugs and subcellular components in animal cells, The (ed. by P. N. Campbell), 155
Introduction to experimental ecology (T. Lewis and L. R. Taylor), 55
Kompendium der Veterinär-Anatomie (ed. by E. Schwarze and L. Schröder), Vol. VI, Embryology (G. Michel), 155
La peste bovine (H. Jacotot and P. Mornet), 99
La peste equine (African horse sickness) (P. Mornet and Y. Gilbert), 597
Liver biopsy interpretation (P. Scheuer), 666
Nomina anatomica veterinaria, 366
Protein utilization by poultry (ed. by R. A. Morton and E. C. Amoroso), 54
Sheep husbandry and diseases, 5th edn (A. Fraser and J. T. Stamp), 429
Some diseases of animals communicable to man in Britain (ed. by O. Graham-Jones), 480
Teratology of the central nervous system (Harold Kalter), 665
Textbook of meat inspection, 5th edn (H. Thornton), 203
Veterinary parasitology, 2nd edn (Geoffrey Lapage), 54
Viral and rickettsial infections of animals, Vol. I (ed. by C. J. York and A. O. Betts), 598
Bovine foot, radiology of, 573
Bovine herpes mammillitis, serological findings in, 317
Buffaloes, adaptability of, to a hot environment: Variation in volume and composition of body fluids (interstitial, blood and urine) as a measure of, 389. Variation in cardio-respiratory rates, rectal temperature, blood haematocrit and haemoglobin as measures of, 463

CALCIUM and phosphorus metabolism in cows after simultaneous injections of vitamin D_3 with vitamin A or thyroxine, 177
Cervix uteri of cattle, effect of parity and pregnancy on the dimensions and weight of, 12
Cervix uteri of sheep, effect of pregnancy on the dimensions and weight of, 21
Chabertia ovina infections in lambs, a study of, 136
Chorionic fusion and the occurrence of freemartins: A brief review, 442
Copper poisoning in sheep, chronic, the relative merit of various blood analyses and liver function tests in giving an early diagnosis of, 213
Corneal radius of curvature and age in rabbits, relationship between, 560
Cows' milk, the effect of mastitis on the number and diameter of fat globules in, 63
Cows' milk, the effects of different bacterial infections causing mastitis on the yield and quality of, 57

DISEASES causing death in pigs aged 2–7 months in a commercial herd, the incidence and nature of, 492

Eimeria, the incidence of drug resistant strains of, in chickens in Great Britain, 1966, 31
Enzootic bovine haematuria, histopathology of, in the Darjeeling district of India, 587
Erythrocyte glutathione and growth in the calf, 591
Erythrocyte refractile bodies in cat blood, a staining technique to demonstrate, 437

FASCIOLIASIS, synergism in the chemotherapy of, 82
Fertility in the pig, genetic aspects of, 267
Fertility of the boar, artificial insemination and, 272
Fertilization and embryonic survival in dairy cattle, 87
Fertilization in female goats hyperimmunized with semen antigens, 403
Fasciola hepatica, pathophysiology of infections with normal and irradiated metacercariae of, 564
Fibrinolysis, coagulation and haematological findings in normal Large White/Wessex cross pigs, 74
Foot-and-mouth disease virus, inactivation of in milk, 163
Fowl cholera in Hong Kong, some studies of, 622

GASTRO-ENTERITIS, transmissible (TGE), of swine, 410
Glomerular filtration rate, alteration of, in the chicken during intravenous dextrose infusion, 645

HEAT tolerance of shorn and nutritionally depleted sheep in a tropical environment, preliminary observations on, 112
Helminths of the pig: Pathogenicity, diagnosis and control, 304

Horn cancer in Indian Zebu cattle, epidemiology, of: Breed incidence, 222
Hypomagnesaemia in milk-fed calves, the effect of increased levels of dietary calcium and sodium on the development of, 547

IMMUNOGLOBULINS in calf sera, the effect of haemoglobin on the detection of, 458
Immunological competence: Postembryonal histological and histochemical changes in the bursa of Fabricius and spleen of chickens and their relationship to the development of, 183
Initial Reports—
Aspergillus fumigatus in the mesenteric lymph nodes and intestinal mucosa of cattle, xiii (April)
Balanoposthitis in housed rams bedded on wood shavings, i (Jan.)
Bedsonia infection, a naturally occurring latent, in guinea-pigs, xxiii (Aug.)
Brucella abortus, isolation of from vaginal mucus samples, xxxiii (Dec.)
Cellulose breakdown by mixed rumen microorganisms *in vitro*, effect of some antibiotics and sulphonamides on, xviii (May)
Glucocorticoid administration in the dairy cow, xiii (May)
Intravascular haemolysis, the detection of, in the horse, v (Jan.)
Left cranial vena cava, the presence of, in a dog, xxi (July)
Marek's disease agent, a comparison of two assay methods for, xvi (May)
Newcastle disease virus (CDF 66): A preliminary report on the isolation of a lentogenic strain of, from a pig, xxvi (Aug.)
Nursing periods, the frequency and duration of, in single-suckled Hereford beef cows, ix (Feb.)
Rabies, control of, xxix (Dec.)
Rhinoviruses of bovine origin, vii (Jan.)
Serum urea levels of working dogs, the effect of diet on, xi (March)
Thelazia infestations of cattle in Cambridgeshire, xxxix (Dec.)
Trichostrongylus axei, the effect of temperature on the development of the eggs and larvae of, xxxvii (Dec.)
Urea space in adult cattle, ii (Jan.)
2-Iodo-4-cyano-6-nitrophenol, anthelmintic and diffusion properties of, affected by blood serum or by serum albumin solutions *in vitro*, 483

LOCI of ossification, observations on, in the prenatal and neonatal bovine skeleton. I, The appendicular skeleton, 101. II, The sternum, 422
Locomotory disturbances in pigs, 354

MAREK'S disease, some virological and serological observations on: A preliminary report, 445
Mastitis, bovine, an unusual outbreak of, caused by a streptococcus, 128
Mastitis, the effect of on the freezing point of cows' milk, 25
Mid-piece sperm abnormality due to high temperature exposure of rams, 534
"Minimal disease" bacon pigs, the haematology of: A comparison with genetically-related conventionally-reared pigs, 240
Mycoplasma gallisepticum antibodies, serum treatment and antigen dose effects on agglutination and haemagglutination inhibition by, 195
Mycoplasma, the role of in some diseases of pigs, 340
Mycoplasmas, a general description of, 344

Ostertagia ostertagi, the effect of cortisone on populations of uniform age of, 617
Ostertagiasis, bovine, serum pepsinogen activity and the diagnosis of, 379

PARAINFLUENZA 3 virus, a survey of sheep sera for antibodies to an ovine strain of, 311
Parainfluenza 3 virus, the occurrence of antibodies to, in sera of farm animals and man in Iran, 529
Parbendazole, laboratory and field evaluation of: A new anthelmintic for sheep, 205
PCV, Hb and plasma electrolyte studies in horses. II, The effects of surgical operations under chloroform anaesthesia on PCV, Hb and plasma electrolyte concentrations in horses, 1
Performance in a large pig herd, an analysis of some factors affecting. I, Annual production of pigs per sow, 36
Pig housing: recent trends and problems, 259
Poisoning in the pig, 289

Pyrantel tartrate, continuous low level feed administration of in lambs. I, Prophylaxis of experimental *T. colubriformis* infections, 235. II, Comparison with routine drenching in the prophylaxis of natural infections, 330

RENAL function in neonatal calves: Response to acidosis, 367
Reproductive failure in swine, a review of, 599
Respiratory infections in pigs, the pathology of, 294

Salmonella abortus ovis bacteriophage, isolation of, and the determination of its specificity, 568
Salmonella excretion, the incidence of, in various pig populations from 1966 to 1968, 635
Salmonella infection in pigs, 431
Sodium sulphite test, the validity of, for detecting immunoglobulins in calf sera, 68
Staphylococcal apocrine gland infections in the dog (canine hidradenitis suppurativa), 121
Streptococcus uberis, isolation of from lactating and non-lactating cows, 145
Swine fever: The interaction of research and control measures, 349

TAIL-BITING among fattening pigs, an investigation into, 511
Tail bones of cows, variations in the relative cortical mass of, during pregnancy and lactation, 454
Thoroughbred foals, a study of growth rate in, 539
Thoroughbred foals, normal newborn, measurements of pulmonary ventilation in, during the first three days of life, 157
Trypanosome strain resembling *T. congolense*, apparently completely adapted to the porcine species: Notes upon a, 414

UDDER, the incidence of infection of, in a herd of cows over a period of years, 504

VITAMIN B_{12}, studies on, in the horse, 169

"WET droppings", water and electrolyte balance studies of birds showing, 653
